

VARICAM ISO 5000

# DON'T BE AFRAID OF THE DARK

Panasonic & SIM Digital welcome you to join us for a presentation with William Wages, ASC for a review of real-world production experiences using the VariCam 4K HDR Cinema Cameras.

## Topics to be covered by both William Wages and Panasonic:

- Award winning VariCam sensor technology overview
- VariCam dual native ISO 800 and 5000 – how it's achieved and what it means for your production
- VariCam operation to achieve stunning visuals exactly meeting your production vision
- Display of VariCam content & review of post-production workflow
- Live demo, hands-on, and discussions

Come discover this game changing camera technology for yourself!
